## INTERFERENCE AMONG THE FREEDMEN.

Gen. Howard, Commissioner of the Freedmen's Bureau, announces that information has been received from Virginia and South Carolina that interference among the freedmen is on the increase. General Howard states that already a movement is on foot in this city having in view a thorough organization, so as to enable the colored people to exert all the power possible to prevent the evil in question. He expresses a hope that the officers and agents of this bureau, and the agents of the different benevolent associations working for the elevation of the colored people will take immediate measures to organize associations of colored people (never excluding the white) under the name of "The Lincoln Temperance Society." General Howard instructs the assistant commissioners to have the names of officers or agents of the bureau who may be interfering immediately reported to his office. — Wash. Chronicle.

**HOW IT OPERATES.**—It seems that strikers may—and such is one of the logical results of their movements—get to striking among themselves. In New York the Plasterers' Association have passed resolutions refusing to work with bricklayers who are allowed or who undertake to do any plastering. The latter, on their side, resort to doing no more plastering with the former until the exclusive resolution is rescinded. Neither party, however, seem to be aware that they are asserting in their own case exactly the right they resist in the case of contractors and employers, viz: the right to manage their own business affairs.

## GUANO AND FERTILIZERS.

The subscriber has on hand a full assortment of the most approved MANURES, which he prepares, or in any quantity desired, at the LOWEST MARKET RATES.

As the prices are uniform the farmer can obtain his supplies as well by correspondence as though he were to purchase in person.

Peruvian Guano, of the best quality. Bolivian Guano. This article comes from the same section as Peruvian, which it closely resembles in texture and appearance. It is much richer in Phosphate, but for less Ammonia. For stiff soils or stiff sub-soils it will answer quite as well as Peruvian, and it costs but two-thirds the price of that article.

Mexican Guano, of four grades. Ground Bones. Woolton's Cerealizer. The high reputation borne by this article as the most effective and reliable crop producer made in the United States, induces me to ask the farmer to test it alongside of any manure he may apply.

Woolton's Ammoniated Bone Phosphate. This article is manufactured by the same house, and contains all the best qualities of Peruvian Guano and Ground Bones. WM. H. IRWIN,

mh 28-1f No. 3, south Union street.

## GUANO—REED'S AMMONIATED SUPERPHOSPHATE OF LIME.

The best superphosphate yet offered to the farmer, possessing all the activity of Peruvian Guano, but being far more durable in its effects. It contains a large amount of animal matter in highly concentrated form, which, combined with its soluble bone phosphate of lime, cannot fail to render it very valuable as a fertilizer. Notwithstanding we believe it to be the best superphosphate in the market, yet, by a process peculiar in its manufacture, whereby the expenses are lessened, we are enabled to sell it very low, with a liberal discount to dealers.
